

Browser Settings required for running XDK™ Platform

Turn Off Pop-up Blocker

To use the IDEALx, you must Turn Off Pop-up Blocker in your browser.
Note By default, Pop-up Blocker is enabled.

Microsoft Internet Explorer 6.0 and 7.0 for Windows

1. Select **Internet Options** from the **Tools** menu.
2. Click the **Privacy** tab at the top of the Internet Options window.
3. Click to clear **Block pop-ups** to turn Pop-up Blocker off.
4. Click **OK** to save and Close the window.

Add IDEALx to Trusted Site

To use the IDEALx, you must Add IDEAx to Trusted Site.

Microsoft Internet Explorer 6.0 and 7.0 for Windows

1. Select **Internet Options** from the **Tools** menu.
2. Click the **Security** tab at the top of the Internet Options window.
3. Select **Trusted Site**.
4. Click to **Sites** to add trusted site.
5. Enter **http://203.196.171.123**, **No need to enter Port Number**.
6. Uncheck the Option "**Require server verification(https:) for all sites in this zone**".
7. Click **Add** to add trusted site.
8. Click **OK** to save and Close the window.

Enabling JavaScript

To use the IDEALx, you must enable JavaScript in your browser.

Microsoft Internet Explorer 6.0 and 7.0 for Windows

1. Select **Internet Options** from the **Tools** menu.
2. Click the **Security** tab at the top of the Internet Options window.
3. Select the **Internet** zone by clicking the world icon.
4. Click the **Custom Level** button.
5. Scroll down to *Scripting* and *Active scripting* and click the **Enable** radio button.
6. Click **OK** to save and close each window.

Enabling ActiveX

ActiveX is required for the use of the Export Excel in the IDEALx.

Microsoft Internet Explorer 6.0 for Windows

1. Select **Internet Options** from the **Tools** menu.
2. Click the **Security** tab at the top of the Internet Options window.
3. Select the **Internet** zone by clicking the world icon.
4. Click the **Custom Level** button.
5. Scroll down to *ActiveX controls and plug-ins* section.
6. Click the **Enable** radio button for both *Run ActiveX controls and plug-ins* and *Script ActiveX controls marked safe for scripting*.
7. Click **OK** to save and close each window.

Microsoft Internet Explorer 7.0 for Windows

While you should not need to enable ActiveX if you use Internet Explorer 7.0, you will need to add the IDEALx to your trusted sites.
